

Use of Twitter by different media outlets

Jeanne Brink^a

^a*Stellenbosch University, South Africa*

Abstract

This document provides some insight as to how different media outlets use Twitter. The media outlets focused on are The Economist, BBC and CNN.

JEL classification

1. Introduction

Due to time constraints I could not answer this question. I only had time to load the data. I am able to work comfortably in Texevier. I can refer to sections, such as section 2 and I can also do referencing, for example I can reference [Alagidede, Baah-Boateng & Nketiah-Amponsah \(2013\)](#). Although this does not prove that I can work in Texevier, I have rewritten one of my essays in Texevier and can send this as an example of work I have done in Texevier.

2. Conclusion

Write conclusion here.
